

Affordable, Practical Safety Management Systems

New Legislation is forcing more people to ask small business owners for copies of their **Safety Management Systems** but unfortunately as good as business owners are in their field, many do not have the expertise or the time to develop these systems.

Off the shelf programs are usually expensive, too wordy and require staff to spend too much time filling out forms and updating information, rather than spending their valuable working hours income earning.

My Safety Consultants can reduce the stress by offering **SIMPLE, PRACTICAL, TAILOR MADE** Safety Management Systems designed specifically **FOR YOUR BUSINESS.**

Call us today – *make the headache go away!* **0412 045 952**
